

Lasting Protection

MediDefense Penetrex

Active Barrier
bonds to treated surfaces for long term
protection between cleanings.

Highly effective in reducing ATP scores and acts as an effective bacteriostatic coating

 **MEDI DEFENSE™**

Penetrex™

- Protective barrier reduces risk of cross contamination on high touch and at risk surfaces
- Environmentally friendly non-toxic /non-leaching antimicrobial technology
- Promotes lower ATP (adenosine triphosphate) scores
- Fast and convenient spray and wipe application
- Cured treatments remain effective in the presence of bleach between disinfections
- Supports accreditation mandates for patient protection
